

4-core fiber distribution box OEM

Overview

FBR-11605 Fiber-Optic Distribution Box, 4-Core is a high quality product by Bud Industries used for electronic enclosure applications. It is widely adopted in FTTx cabling for both fiber cabling, provides the connection between fiber optic cables and passive. The Fiber Optic Distribution Box is a multifunctional termination point to connect feeder cables with drop cables in FTTX communication network systems. This box integrates fiber splicing, splitting, distribution, storage, and cable connection into a single unit. It is typically used in cabling work area subsystems. It has been designed to serve as a building entry point for FTTH applications but is also a perfect choice for all types of FTTX applications. The user cable terminal box mounted on the wall, whose function is to provide fiber transfer of welding and optical.
