

# 96-core fully equipped single-mode ODF fiber optic distribution frame

## Overview

Designed by Fenxi Optoelectronics Technology, this distribution frame integrates fiber termination, splicing, storage, and distribution into a single standardized platform, helping ensure stable signal transmission and efficient network operation. The ODF Fiber Optic Distribution Frame LC/UPC-96core is a high-density optical fiber management solution developed for telecommunications operators, system integrators, and FTTH network projects. Users can select unit or ring flange amount according to their practical needs. Welding. ✓ Flexible port configuration (12-144 ports) for scalable fiber management ✓ Includes pigtailed, adapters, and splice trays for quick deployment ✓ 19 inches, modular design supports easy expansion and maintenance ✓ Durable metal housing for stable, long-term performance ✓ Ideal for high-density.
