

Burundi Fiber Optic Communication

Overview

Key Insight: Burundi has made significant progress in expanding its fiber optic infrastructure, reaching 45% coverage in urban regions, which supports faster internet access. Burundi Backbone System, or BBS, is a wholesale broadband telecommunications company in Burundi. It supports the government network, and networks connecting universities, banks, and service providers. BBS. These Terms and Conditions ('the Terms') govern your use of the website on the Internet located at www. The Site is owned and operated by Developing Telecoms Limited ('the Owner', 'we', 'us', 'our'). Burundi and Zambia are set to be linked through an underwater fibre optic cable following the signing of a memorandum of understanding. The growth of internet users has increased steadily, with 38% of the population actively online, driven by mobile technology. Zambia and Burundi have signed a landmark Memorandum of Understanding (MoU) that will establish a fibre optic connection between the two countries, further enhancing digital connectivity in the region.
