

Cable trays for light ducts

Overview

Cut, bend, and connect the wire mesh trays to route cable and hose in configurations such as curves, slopes, and tees. They are a lightweight option for organizing bundles of cable and hose while keeping them accessible. Use bolt cutters to cut trays to the size you need. The cable tray products are designed for use in numerous commercial and industrial applications. Available in standard and bespoke sizes. ABB designs and manufactures cable tray systems, including perforated tray, cable ladder, channel tray and strut (metal framing), directly from production facilities in Canada and Saudi Arabia. Combining local manufacture and distribution with an extensive product range, these facilities ensure we. The wire cable tray system is the strongest system for guiding and protecting cables, pipes, flexible pipes and hoses.
