

Cambodia Active Optical Cable 800G

Overview

The 800G OSFP Active Optical Cable is designed for 800 Gigabit Ethernet links over OM4 multimode fiber. This cable is compliant with IEEE 802.0, SFF-8679, and CMIS Rev 4. The built-in digital diagnostics monitoring (DDM) allows access to real-time operating. The 800G Active Optical Cable (AOC) series redefines data-center interconnect performance by combining the simplicity of a pluggable copper cable with the reach and signal integrity of embedded optics. The signal integrity severely stressed under high-speed data transmission is enhanced via advanced highest flexibility. The result is a highly flexible DAC cable which reduces the overall bend space up to. 6Wresearch actively monitors the Cambodia Active Optical Cables Market and publishes its comprehensive annual report, highlighting emerging trends, growth drivers, revenue analysis, and forecast outlook.
