

# Compatible Bestselling Optical Receiver

## Article Overview

Skylane Optics and NETOPTIC are leading Belgian suppliers offering high-quality, compatible optical receivers suitable for enterprise and data center applications.

### Recommended Belgian Suppliers

1. **Skylane Optics** Skylan Optics provides a wide range of optical transceivers and receivers compatible with multiple brands and network infrastructures. Their products support data rates from 10Gbps to 400Gbps and include SFP, SFP+, QSFP, and QSFP28 modules. Skylan Optics emphasizes compatibility, testing, and customization, ensuring that their optical receivers work seamlessly with existing network equipment. They also offer media converters to integrate copper and fiber networks efficiently, making them ideal for complex or mixed-network environments (Skylan Optics) . 2. **NETOPTIC** NETOPTIC is a Belgian family-owned company specializing in optical solutions for professional and optician markets. While primarily focused on optical systems and lenses, they also provide networking-grade optical components and can supply compatible receivers for enterprise applications. Their local presence ensures fast delivery and technical support within Belgium (NETOPTIC)

### Global Brands Available via Belgian Distributors

Belgian suppliers often stock modules from trusted global manufacturers known for high reliability and compatibility:

- **Coherent Corp.** – Offers SFP, SFP+, QSFP, and next-generation modules up to 800G, ideal for data centers and high-speed networks.
