

DIY Wall-Mounted Cable Tray

Overview

Follow this simple step-by-step guide and make a cable management trough from recycled wood. It's designed for easy and versatile use, and it fits on the back wall beneath your computer desk (to keep all the cables off the floor). However, I find that cable ties bind when you want to remove, replace or add a cable—and, apart from expensive trunking, the other cable-tidy gadgets I've seen look just as cumbersome or fiddly to use. Therefore, as part of our recent major home office makeover, I decided to make my own cable. 00:00 Cable tray Wall support YPK is used to attach cable ladders to walls from above. Cable trays are attached to wall support YPK with M6x30 screws and M6 nuts. They're a straightforward solution for managing large power and data cable bundles, keeping everything in place and easily accessible. At SV Electricals, we have crafted. Protects Cables – Tangled cords are more likely to fray or become damaged.
