

European-style electrical distribution box with concealed door

Overview

European-style rugged steel plate construction, dustproof and waterproof wall-mounted distribution box, suitable for various installation spaces. In today's market, buyers are not only looking for a metal box with a door. They need an electrical enclosure that supports modular breaker installation, keeps the internal layout organized, helps protect equipment from dust and moisture, and fits the certification expectations of different. In many electrical projects, the distribution box is chosen late. The team focuses on breakers, cable routes, load schedules, and delivery dates, then treats the enclosure as something almost interchangeable. We offer a Consulting and Engineering service to support the client throughout the entire lifecycle of their project, solving any technical. The YB series European prefabricated outdoor box-type substation developed and produced by LUGAO integrates high-voltage electrical equipment, transformers and low-voltage electrical equipment into a compact and complete distribution device.
