

HC Switch PoE Configuration

Overview

For a PoE-capable switch to supply PoE power, install an LSQM4GV48SA0 or LSQM4GV48SC0 interface module on the switch. To configure one. Only the PoE models support the PoE feature. You can configure a PI through either of the following ways:

- Configure the settings directly on the PI.

PoE Configuration Commands

```
1. 1 display poe interface Syntax display poe interface { interface-type interface-number | all }
```

View Any view Parameters interface-type. Home Support Switches H3C S3600 Switch Series Configure & Deploy Configuration Examples H3C Low-End Ethernet Switches Configuration Guide (V1. 01) Power over Ethernet (PoE)-enabled devices use 10BASE-T, 100BASE-TX and 1000BASE-T twisted pair cables to supply power to powered devices (PD) and. The Cisco Universal Power Over Ethernet (UPOE) feature provides the capability to source up to 60 W of power (2 x 30 W) over both signal and spare pairs of the RJ-45 Ethernet cable by using the Layer 2 power negotiation protocols such as CDP or LLDP.
