

# How much does Xiangtong fiber optic cable cost per meter

## Article Overview

Xiangtong fiber optic cables typically cost between \$0.50 and \$2 per meter, depending on fiber type, core count, and cable construction.

### Estimated Price Range

- Single-mode fiber (long-distance, minimal signal loss): \$1 to \$2 per meter, suitable for backbone or long-haul networks .
- Multimode fiber (shorter distances, data centers, or LANs): \$0.50 to \$1 per meter .
- High-core-count or specialized cables (e.g., armored, ribbon, or micromodule types) may cost more due to additional materials and manufacturing complexity .

### Factors Affecting Cost

- Fiber Type: Single-mode (OS1/OS2) is generally slightly more expensive than multimode (OM3/OM4) due to performance and manufacturing standards .
- Fiber Count: Higher strand counts increase cost, but not always linearly; a 48-core cable is not exactly double the price of a 24-core cable .
- Cable Construction: Armored or outdoor-rated cables with PE or UV-resistant jackets cost more than indoor PVC or LSZH cables .
- Environmental Rating: Direct-buried, flame-retardant, or UV-resistant cables require additional testing and materials, increasing per-meter cost .
- Manufacturer and Brand: Premium fiber brands like Corning or YOFC may add 10–15% to the cost compared to generic Chinese brands .
