

Integrated Distribution Box Housing

Overview

An integrated distribution box is a compact, all-in-one electrical enclosure designed to streamline power distribution by housing circuit breakers, fuses, contactors, and other control components in a single unit. The range of applications extends from pure energy distribution in buildings to building automation and through to industrial plants. SMART DISTRIBUTION BOXES FOR FLEXIBLE BUILDINGS. Wieland is your. Wide selection of housings and cabinets made of plastic, aluminium and stainless steel Do you need distribution boxes/enclosures for your application?

At LAPP you will find a comprehensive range of high-quality and attractively designed enclosures and distribution boxes from the leading German. Our flexible distribution boxes enable reliable, decentralized signal transmission and power transmission up to protection class IP67 – wherever passive distribution boxes are required.
