

Kenya Fiber Optic Network Construction

Overview

In late March 2026, the World Bank Board of Directors approved KES 58.3 billion (about \$550 million) in fresh funding for a project that will lay approximately 1,270 kilometres of high-capacity fibre optic cable from Isiolo to Mandera. Soliton Telmec has the largest fiber deployment capacity in the East African region. We have deployed over 5,000 route kilometers and laid over 300,000 fiber route kilometers in long haul, metro and access networks across the region. We are committed to providing the highest quality optic fiber services in Kenya & which has led us. /installation and operation of a high-capacity optic fiber cable (O n/insFlir Systems Limited (FSL) provides turnkey services for the provisioning of fiber optic network construction projects, radio masts & towers and power systems in Kenya. The Communication Authority of Kenya (CA) in September 2014 granted us a Network Facility Provider Tier 2 (NFPT2) license to lease excess fiber to licensed operators in Kenya.
