

Lebanon Mobile Communication Optical Cable Project

Overview

BEIRUT: Prime Minister Saad Hariri announced Tuesday the initiation of a wide scale fiber optic project across all Lebanese territories, after state-owned telecom company Ogero awarded tenders to three international companies tasked with linking end users to their central offices. Founded to bring enterprise-grade fiber connectivity to Lebanon and the broader Middle East at prices that make sense. We source, test, and deliver optical transceivers and cables that your network can count on, day after day. OptiLink was built on a simple belief: world-class fiber infrastructure. Fiber to the x (FTTX) is a generic term for any broadband network architecture using optical fiber to provide all or part of the local loop used for last mile telecommunications. The project. Telecommunication is the second income generating sector for the state treasury after the VAT, with net revenues exceeding USD 1. We trust on providing CommScope (formerly known as TE Connectivity/KRONE) to all contractors, dealing with OGERO & the. Beirut - Lebanon, September 10, 2025: Minister of Telecommunications Charles Hage and Alfa's Chairman & CEO Jad Nassif inaugurated the Alfa Data Center in Jdeideh which is the most advanced in Lebanon.
