

Malaysia EDFAQSFP28

Overview

This QSFP28 pluggable EDFA booster amplifier offers a optical input range and provides a +17dB nominal gain to a C-Band DWDM link. For use in qualified Dell™ platforms. Dell Networking adds additional functionality to the optics and cables family with the introduction of 200GbE Active Optical Cables a. It is configured for Automatic Gain Control (AGC) by default and can be further configured via. Accelink pluggable amplifiers are a series of EDFAs that support hot plug and are compatible with various pluggable small form factor standards, such as XFP/CFP/CFP2/QSFP28/QSFP-DD/OSFP. The product has compact size, excellent optical parameter and built-in control circuit, which can be directly. SFP, SFP+, SFP28, QSFP+ and QSFP28 are different optical transceiver types. And all of them are hot-pluggable network interface modules used for connecting a network switch and other networking devices (such as a server or media converter) for data transmission.
