

Mesh Cable Tray Bending Machine

Overview

The Cable Tray Bending Machine is mainly applied to bend all kinds of welded cable trays according to the required angle, shape, and size. It functions with the DAPU cable tray welding machine, creating an efficient and accurate welding procedure. WhatsApp☑17802216114Email☑bernice@hx-machinery. com cable tray bending machine Our cable tray bending machine delivers automated, high-speed, and precise bending solutions for. Our company stands behind the quality and performance of the Cable Tray Bending Machine with comprehensive remote technical support and warranty services. Hydraulic systems are popular with customers for their precise control, small errors and ability to handle larger and thicker trays. It uses a number of the most well-known domestic and international electronic components from Siemens/Panasonic PLC of Germany, Schneider Electric of France, and Panasonic servo motors of Japan, among others.
