

Monitoring Box Fiber Optic 4-Core Terminal Box

Overview

The HTB8062 4 Core Wall Mount Fiber Optic Terminal Box is a versatile fiber termination box designed for FTTH and indoor fiber applications. This box is suitable for splicing and managing fiber cables in residential buildings, providing a secure, accessible solution for cable. The equipment is used as a termination point for the feeder cable to connect with drop cable in FTTx communication network system. The fiber splicing, splitting and distribution can be done in this box, and in meanwhile, it provides solid protection and management for the FTTx network building. 4-core fiber optic terminal box for B2B. Its DIN rail mount design allows for easy installation in various. ABS or PC material used ensures the body strong and light. Suitable for 4 adapters SC configuration and splitter Wet-proof, water-proof.
