

Price List for Imported Network Cabling Racks

Article Overview

Imported network cabling racks typically range from \$150 to \$1,200 per unit depending on size, customization, and manufacturer.

Price Overview

The cost of imported network cabling racks varies widely based on dimensions, rack units (U), material quality, and additional features. Standard floor-standing or wall-mounted racks generally start around \$150-\$300 for basic models, while fully enclosed, ventilated, or soundproof cabinets can reach \$800-\$1,200 per unit. Open-frame racks and modular components are usually more affordable, often priced between \$100-\$400 depending on size and load capacity.

Factors Affecting Price

- **Size and Rack Units:** Larger racks with more U spaces consume more steel and require stronger frames, increasing cost.
- **Customization:** Many manufacturers offer OEM options, including adjustable panels, cable management systems, fan trays, and PDUs, which can significantly affect pricing.
- **Material and Finish:** Powder-coated steel, reinforced frames, and soundproofing add to the unit price.
- **Accessories:** Shelves, casters, grounding kits, and ventilation fans are often sold separately or bundled, impacting total cost.
