

Price of Fiber Optic Cable Storage Rack

Article Overview

Fiber optic cable storage racks vary widely in price depending on size, capacity, and features, typically ranging from \$100 to over \$1,000 per unit.

Overview of Fiber Optic Racks

Fiber optic racks are designed to organize, protect, and manage fiber optic cables in data centers, telecom rooms, or FTTH installations. They come in rack-mounted (1U, 2U, or multi-U) and wall-mounted configurations and are often made from aluminum or steel for durability and lightweight handling .

Key Features

- **Capacity:** Racks can hold multiple LGX adapter plates, modules, or cassettes. For example, a 1RU enclosure may accommodate 3 adapter plates, while a 2RU can hold 4-6 .
- **Cable Management:** Integrated cable organizers, tie-down spots, and semi-circular slack rings allow neat routing and storage of patch cords and slack fiber .
- **Accessibility:** Many racks feature slide-out trays, removable front and back doors, and spring-loaded latches for easy maintenance .
- **Mounting Options:** Standard 19" racks, ETSI profiles, or wall/floor mounting options are available .
- **Additional Features:** Some enclosures include airflow management, Styrofoam pads for heat dissipation, or cantilever shelves for heavy equipment .

Typical Price Considerations
