

Prices for various elbows in cable tray manufacturing

Article Overview

Cable tray elbows range from approximately \$1.3 per piece for bulk galvanized or stainless steel elbows to over \$100 for specialized aluminum elbows.

General Pricing Overview

- **Bulk Industrial Elbows:** On Alibaba, cable tray elbows made of galvanized or stainless steel are available in bulk for around \$1.3 per piece, making them suitable for large-scale industrial applications or distributors .
- **Aluminum Elbows:** High-quality aluminum elbows, such as the Legrand Itray/90HB horizontal 12-inch elbow, are priced significantly higher due to material and design features, typically over \$100 per unit . These are designed for long-span installations and heavy-duty cable management.
- **Galvanized Steel Elbows:** RS PRO 45° horizontal elbows made from Sendzimir galvanized steel are mid-range options, offering durability and ease of installation. Prices for these typically range from \$10 to \$50 per piece, depending on size and supplier .

Factors Affecting Price

- **Material:** Stainless steel and aluminum are more expensive than galvanized steel due to corrosion resistance and structural properties.
- **Angle and Bend Radius:** 45° elbows are generally less expensive than 90° elbows with larger bend radii.
