

Sales price of European-style ladder-shaped cable trays

Article Overview

European-style ladder cable trays vary in price depending on material, size, and manufacturer, typically ranging from €20 to €150 per meter for standard industrial models.

Pricing Overview

The cost of European-style ladder cable trays depends on several factors:

- **Material:** Hot-dip galvanized steel, stainless steel, aluminum, or powder-coated options influence price. Stainless steel and aluminum are generally more expensive due to corrosion resistance and lighter weight .
- **Dimensions and Load Capacity:** Wider trays or those designed for heavy power cables cost more. Standard widths range from 100mm to 600mm, with larger or reinforced ladders priced higher .
- **Accessories and Fittings:** Connectors, bends, supports, and suspension systems add to the total cost. Turnkey solutions with mounting hardware are more expensive than basic ladder sections .
- **Supplier and Region:** Prices vary across Europe. Suppliers like Eurotray, Trayco, and Ekabel24 offer competitive pricing, but exact quotes require direct inquiry due to customization options .

Typical Price Range

- Basic galvanized steel ladder trays: approximately €20–€50 per meter.
