

Standard Metal Mesh Cable Trays

Overview

Wire mesh cable trays provide a secure surface for cables to rest on while holding them out of the way of equipment and workers. Made from strong, durable steel, they are a cost-effective solution for organizing and routing cable systems through a building or other structure. Cable Trays are designed to meet most requirements of cable and electrical wire installations and comply to local and international standards of fabrications and finishes. SFSP cable trays and accessories from SFSP are manufactured from steel sheets in accordance with BS EN 10130/BS EN 10131/ BS EN. Choose from our selection of wire mesh trays, including over 475 products in a wide range of styles and sizes. From heavy power cable pathways on oil drilling platforms to data center cabling, explore the cable tray that's strong yet. Wire Mesh Basket Cable Tray - Stainless Steel or Electro-Galvanized Options with Flexible Routing The E-Line TLS series Wire Mesh Cable Tray systems allow easy cable exit through the spaces in the mesh structure—downward, to the right, or to the left.
